

- We have funded \$500 for the development of a community garden at Georgia Avenue School to teach kids the basic knowledge of starting and then maintaining a garden. The produce will then go to provide a good food box for a family in a temporary extreme need.
- We have funded Forest Park Elementary \$500 for the purchase of runners, shorts, socks and other exercise wear for students so all students can participate in daily physical activities.
- We have funded the Nanaimo Child Development Center \$500 for a wheelchair ramp between two buildings. This will help provide physical therapy for kids and reduce wait times.
- We have funded \$1319 under the ROC For Kids Program to provide registration fees for kids to participate in soccer and gymnastics.
- We have handed out one shoe certificate for footwear from Frontrunners for a person in extreme need of new shoes.
